BUSINESS REPORTS EXPLAINED

Coface offers two business report options designed to fit your business information needs.

Snapshot Report

If you need only basic information on your business partners, Coface offers, when available, short reports with instant delivery on companies located in more than 60 countries. The Snapshot Report includes a Maximum Credit Recommendation.

Full Report

If you need more comprehensive information to conduct your own in-depth risk analysis, the Full Report provides greater detail than the Snapshot Report. It too includes a Maximum Credit Recommendation.

When we have the company data on file, this report can be obtained via instant delivery. When you absolutely need the most up-to-date information, or if data on a company is not on file, Coface has the expertise to quickly undertake a specific investigation for you.
